THE POWER OF LOCAL

A MESSAGE FROM OUR CEO

Dear Allies of Epilepsy Alliance Florida,

The power of local. These four small words hold such a large meaning for us here at Epilepsy Alliance Florida.

It's our mission to support the more than half a million Floridians impacted by epilepsy by confronting the spectrum of challenges created by seizures. We do this, on the ground, in local communities across the state of Florida each and every day. From our northernmost communities in Pensacola to as far south as Miami and the Florida Keys, we connect those in need to the help and resources they require and deserve.

To position our organization to provide the best local care, services, and support to our Florida communities, we aligned with our national Epilepsy Alliance organization five years ago. Being part of the Epilepsy Alliance America network has meant so much, allowing us to amplify our work at the local level by working with like-minded epilepsy organizations across the country who share our passion to always put patients first. It's that passion that brings us together to always do the best for those with epilepsy and their caregivers.

This past year allowed us many opportunities to put the power of local into action.

We assisted more than 12,000 individuals living with epilepsy through direct services and provided more than 1,500 with needed medical services. Our annual Walk, the Talk for Epilepsy events, made a collective strive towards destigmatizing epilepsy – bringing together 1,857 participants in our local communities and raising \$440,000. Across the state, special events like our Pediatric Neurology Conference and golf outings raised more than \$416,000 in support of our mission. During Epilepsy Awareness Month in November, we turned landmarks and news teams purple and came together at local events to raise epilepsy awareness. We also continued our advocacy efforts in Tallahassee and were proud to see the Care of Students with Epilepsy or Seizures Disorders law go into effect in July 2022 – a law we have actively backed by providing individualized seizure action plan support and free training for all school personnel.

The following pages of this annual report will highlight even more progress made by Epilepsy Alliance Florida in the 2022-2023 year.

As we look to the years ahead, we're motivated by our more than 50-year history serving Florida's local epilepsy communities. We're also inspired by you. In all the ways you support our organization, it's because of you that our work is possible. It's because of you that our epilepsy world is a better place.

Sincerely,

Karen Basha Egozi

BOARD OF DIRECTORS

Meet the distinguished Board of Directors behind Epilepsy Alliance Florida (EAFLA). Comprising a diverse array of talents and expertise, the board includes influential business leaders, renowned neurologists, epileptologists, and community advocates. With their combined efforts, EAFLA continues to make a positive impact on the lives of those affected by epilepsy, ensuring comprehensive support and awareness throughout the community.

FACES OF EPILEPSY

KEONDRAE

Keondrae, a high school football star and academic standout, faced adversity when he had his first seizure at 17. Despite this, he remained determined and secured a full scholarship to play college football in Pennsylvania. However, the school rescinded the offer upon learning about his epilepsy. Undeterred, he reached out to other institutions but faced rejection due to his condition.

Returning home feeling defeated, Keondrae decided not to let epilepsy hinder his football passion. He now coaches youth football for his former team, aiming to inspire students facing similar challenges. He continues his education, explores his talents as an actor, and dreams of becoming an NFL coach to break the stigma surrounding epilepsy and motivate others to overcome adversity.

ZOHE

Zohe, originally from Puerto Rico, moved to Miami with her family for better opportunities at age nine. A car accident at 17 disrupted her life, leading to a five-day coma and an epilepsy diagnosis. Her family's unwavering support and connection with Epilepsy Alliance Florida (EAFLA) became crucial.

EAFLA, especially its case management team, provided Zohe with essential assistance, including medical help, professional referrals, support groups, and social engagement. Coping with restricted driving due to seizures was a daily challenge that eroded her independence.

Employment stability remained elusive, with job losses possibly linked to her medical condition, including one as a flight attendant. Despite these obstacles, a silver lining emerged when Zohe was referred to Cleveland Clinic. There, she received a NeuroPace implant that significantly improved seizure management, though not eliminating them entirely. Despite ongoing challenges, she remains positive and grateful for the love and assistance enriching her daily life.

PURPLE = RED + BLUE RECEPTION

Annually, we journey to Tallahassee during Florida's legislative session to engage with stakeholders, evaluate policies, and hold the Epilepsy Alliance Florida's prestigious "Purple = Red + Blue" evening reception. At this event, we honor state leaders who have shown unwavering support for both our organization and epilepsy sufferers across the state with our Champion of the Heart Award.

Above: Florida legislators gather in support of Epilepsy Alliance Florida for the annual Purple = Red + Blue reception in Tallahassee.

Providing local care and support to Florida's communities.

OUR HISTORY

Established in 1971 as a not-for-profit 501(c)(3), Epilepsy Alliance Florida (EAFLA) is the principal agency for epilepsy programs and services sponsored by the State of Florida, servicing over half a million Floridians who live with the condition. For most of our history, we were known as Epilepsy Foundation of Florida, but in July 2018 we formally changed our name as we co-founded Epilepsy Alliance America, a nationwide network of communitybased epilepsy organizations. EAFLA also serves as the lead advocate for the rights and needs of people with epilepsy and seizures at the local, county, state, and national level.

EVENTS ... & HIGHLIGHTS

SUPPORTER-HOSTED \$416,002 SPECIAL EVENTS RAISED

Highland Games on the Farm, hosted by Epilepsy Alliance Florida's Board of Directors Vice Chair, Beth Alcalde, transported attendees to the heart of Scotland. Guests relished a Scottish fare meal and were serenaded by the tunes of a bagpipe band. The event's highlight of the night was the dachshund derby races that had everyone on the edge of their seats. This event helped to raise funds for the Seizure Dog Fund which provides financial assistance to those seeking a seizuretrained assistance dog.

events serve as vibrant platforms for epilepsy awareness across seven distinct locations throughout Florida. These walks transcend mere footsteps, uniting a diverse tapestry of supporters, individuals impacted by epilepsy, along with their families, and enthusiastic local businesses and sponsors. The event's significance extends beyond its physical journey, symbolizing a collective stride towards destigmatizing epilepsy and fostering a sense of unity. With each step taken and connection made, "Walk the Talk" reiterates the power of community engagement in driving understanding, acceptance, and support for those living with epilepsy.
